

**BID NO. 636**

**10 x FOETAL SONICAIDS – MATERNITY - £2,613**

The Matron of the Maternity Department asked for the League's support to purchase 10 foetal sonic aids for her department. This equipment is used to monitor a baby's heart beat during labour.

Over 5,000 births take place at the hospital and the sonic aids are used to support the safe care for women in labour and their babies.
