

BID NO. 617

WHEELCHAIRS x 30 - £3,990

The League of Friends was asked by Head of Clinical Engineering to consider a bid for 30 replacement wheelchairs to enhance the supply available to patients and relatives in the hospital. Whilst the hospital already had around 50 wheelchairs these were not sufficient to meet the demands of a busy hospital and delays often occurred whilst staff tried to find a wheelchair. A new procedure has been implemented for the portering staff to collect wheelchairs during their night shift and return to a central point, so they are readily available.
